An increased number of orders, emanating from various portions of the Virgirlias and Carolinas, as well as from
other States within the region tributary

DOGS AT THE EXPOSITION.

Canines of High Degree to Be Exhibited-About All the Space Taken.

When the officers of the Agricultural Society began the work of the Exposition that will be held here next month, it was thought a bench show in connection with the exhibits would be a great attraction. The idea, however, had to be abandoned on account of unavoidable circumstances. It has been suggested recently that breeders of pure dogs might possibly make an exhibit of their stock if approached by the officers of the society. Pursuant to this suggestion the secretary wrote letters to various breeders offering to furnish coops, feed, &c. free if they would make exhibits. A number of breeders have replied to the letter, and yesterday Secretary Owens received a letter from Lewis H. Miller, a prominent breeder at West Chester, Fa., staiting that if the express company would return his dogs free he would bring about forty or fifty of the finest hunters and pet stock ever seen in the South. The express company agrees to return all animals free that are shown at the Exposition. abandoned on account of unavoidable

Colonel C. O'B. Cowardin, Governor O'Ferrall's chief of staff, returned yesterday from Baltimore, whither he Saturday to deliver to Governor Brown. of Maryland, the letter of Virginia's Executive, offering to turn over to Governor the Maryland schooners Price and Stevenson, which were captured in Tangier sound by the Virginia oyster police steamer Chesapeake in February Colonel Cowardin reported to Governor O'Ferrall that he was most courteously received by Governor Brown, who sent his respects and greeting to Governor O'Ferrall and said he would answer the communication in a few days. The Baltimore Sun of yesterday says; Governor Brown will prepare a reply this week, asking that the boats be delivered to Commander Howard, of the Maryland oyster navy, at Crisfield.

Inquiry About Southern Lynchings. Inquiry About Southern Lynchings.

Sunday night Governor O'Ferrall received a telegram from the New York World stating that an English committee had been sent to this country to investigate and denounce southern lynchings, and asking him to wire what he thought of English meddling in our affairs. Governor O'Ferrall replied in the following vigorous telegram: vigorous telegram:

COMMONWEALTH OF VIRGINIA, GOVERNOR'S OFFICE, RICHMOND, VA., September 3, 1894,

The World, New York:

Things have come to a pretty pass in this country when we are to have a lot of English moralists sticking their noses into our internal affairs. It is the quintescence of brass and impudence. They had better swep in front of their own doors before seeking to regulate us. We might as well investigate Englished's affairs in India, her Whitechapel murders, her Jack-the-Ripper stashings, the Maybrick trial and her alleged injustice and crueity to this weman, her rapacious colonial policy in Africa, and the degrading effects upon the Chinese resulting from her optum war,

WHAT WILL THEY DO? The World, New York:

WHAT WILL THEY DO? What do they propose to do in ease they find that the law is not adminis-

what no they propose they find that the law is not administered here according to their ideas? Declare war against us or open the vials of their wrath upon our heads?

What information do they seek? Do they want to know that the white people in the South have lynched negroes whose miserable lusts led them to the commission of the black crime of rape upon white women? If so, they need not investigate, for such is the fact. Do they desire to know that this has been done by infuriate communities for the protection of their white women and to save the victims of these flends from the humiliadion of testifying in courts? If so, this is the fact. Do they want to know is the fact. Do they want to know whether there was any doubt as to the guilt of the men lynched? If so, for the satisfaction of their yearning souls they could have ascertained without encountering the peris of a sea-trip that their guilt was clear in every instance.

PRISONERS PROTECTED. If they had desired to learn whether these lynchings were permitted or countenanced by the civil authorities, they could have learned through the regular channels of correspondence that in every advice of those would-be philanthropists who have taken so much upon them-selves, lynchings will surely cease when the crime of rape ceases. These sympa-thetic Englishmen might find missionary work among the negroes of the South in warning them against the conse-quences of the forcible gratification of their devilish Hish lusts.

This Matter of Darning doesn't amount to much, with the women who use Pearline. Most of it has to be done because you persist in rubbing things over the washboard so. You have to, to get them even passably clean, if you wash with soap in the old way. Use Pearline and you'll save the darning. You haven't rubbed the things to pieces, and you won't have to mend them.
